W. ATLEE BURPEE CO. Seed Growers
PHILADELPHIA, U. S. A.

Floradale Farms—Asters and Zinnias are a great Burpee Specialty. Many acres are grown each year for seed.

Girls hand pollinating Giant Petunias on Burpee's Floradale Seed Farms.

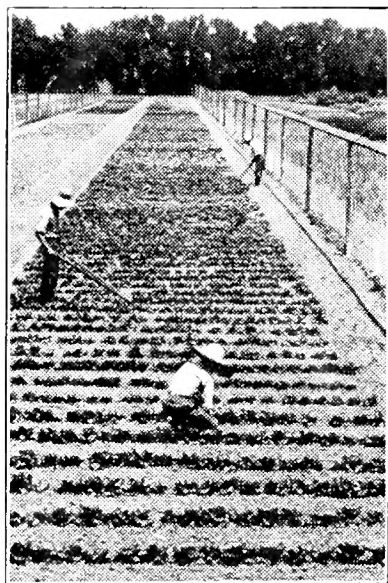

Floradale Farms—the best plants are carefully selected and "caged" to furnish seed for the next year's sowing.

Burpee's Famous Floradale and Fordhook Seed Farms

At Burpee's Fordhook Farms, near Philadelphia, and Floradale Seed Farms, Lompoc, California, a vast amount of experimental work is carried on each year to improve existing varieties of vegetables and flowers and to create new ones. Pages could be written of the work we have accomplished.

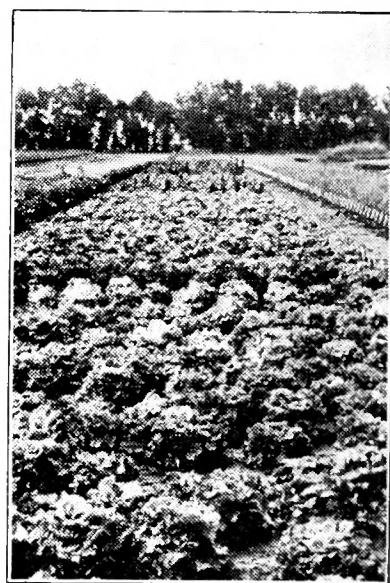

On Fordhook Farms many special strains are produced, in addition to which a large acreage is utilized mostly for growing, testing and insuring the trueness-to-type of all the seeds we send out.

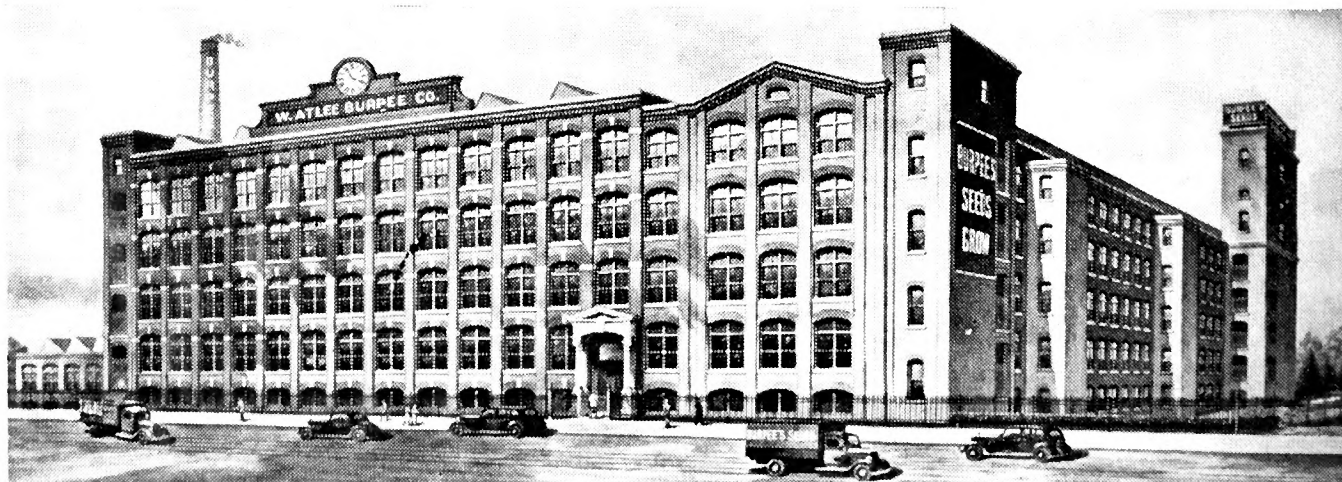

Fordhook Farms—all seeds sold by us are tested for purity and vitality.

At Floradale Farms plants grow to perfection under ideal climatic conditions—mild winters and long, cool, dry summers are favorable for the production of the Best Seeds that Grow. Here, too, is carried on an intensive breeding program as well as much experimental work—all to give you seeds of the Highest Quality and Vitality.

Burpee's Seeds are grown where conditions are most favorable for producing the best seeds. They will grow to perfection wherever they are sown. Because we specialize in seeds and operate our own seed-growing farms, we can quote the Lowest Prices for seeds that are guaranteed, reliable, dependable and which have a reputation for unsurpassed excellence. Results are sure to please you.

All Goods are sold under The Burpee Guarantee We guarantee the vitality and purity of Burpee's Seeds and Bulbs to the full amount of the purchase price. You can have your money back any time within a year if you are not satisfied with the results. Even with the highest quality seeds and bulbs, success in gardening depends largely upon cultivation, soil, and weather conditions. Therefore, in no case shall W. Atlee Burpee Co. be liable for more than the amount actually paid us for seeds or bulbs.

*Quality flowers and excellent staging of Sweet Peas win First Prize for W. Atlee Burpee Co.
at the International Flower Show, New York, March 15, 1940.*

Special Wholesale Prices for Florists

Effective July 1, 1940, all invoices for purchases will be charged at the prices quoted in this Book, unless Special Offers are made by letter or telegram and referred to when the order is placed.

There are many varieties of flower seeds which must be sown in the near future. It will pay you to look through this book NOW and send us your order soon.

While seed of perennials can be sown in the fall, best results are had by sowing the seeds in the summer. Plants from early sowings will grow quickly during the summer, and be in better condition to withstand the winter than smaller seedlings raised from later sowings.

Make succession sowings of quick-growing annuals to supply flowers in late summer and early fall. Sow seeds of those flowers to be grown on for resale as pot-plants. Later on sow Sweet Pea, Snapdragon, Calendula and other seeds for growing under glass during the winter. Order your seeds NOW; make sure they are *Burpee's—the Best Seeds that Grow*.

BURPEE GUARANTEE

We guarantee the vitality and purity of Burpee's Seeds and bulbs to the full amount of the purchase price. You can have your money back any time within a year if you are not satisfied with the results. Even with the highest quality seeds and bulbs, success in gardening depends largely upon cultivation, soil and weather conditions. Therefore, in no case shall W. Atlee Burpee Co. be liable for more than the amount actually paid us for seeds or bulbs. All goods are sold under this guarantee.

BURPEE SERVICE

We realize that service to our customers is fully as important as quality. The Burpee Buildings are especially equipped to properly and quickly fill your orders, nearly every one of which is shipped the same day it reaches us.

If you have not depended upon Burpee for your supply of seeds, do so this year; a trial order will be appreciated. It is our purpose to serve you so well, and at so low a cost, that you will never again sow any other seeds except Burpee's.

FREE DELIVERY

Helen Hayes, famous actress, known and loved by everyone, with the new Sweet Pea named in her honor by David Burpee.

Burpee's New Early Flowering Sweet Pea

3328 Helen Hayes

One of the most beautiful Sweet Peas ever created, and named by special permission of the well-known actress.

Helen Hayes Sweet Pea is of an outstanding color, best described as a soft and appealing shade of coral or coral-cerise enlivened by a luminous suffusion of bright orange. The coloring is uniform over the entire surface of the standard, wings, and keel, and is of unusual clarity, never streaking nor burning even when grown outdoors.

With such rareness of color as seen in Helen Hayes Sweet Pea, we also have vigor of plants, length of stems, and size of flowers. The flowers are extremely large and quite frilled. Many of the blooms are duplexed, again adding to the attractiveness of this new Sweet Pea. Stems are long and strong and usually bear four flowers each, all open at one time and carried with excellent placement. Plants are most vigorous and extremely free flowering.

Helen Hayes Sweet Pea is lovely at all times and especially handsome under artificial light. It never fails to attract attention, and when a man like Jacob Gunther, of Long Island, N. Y., who has grown Sweet Peas for over thirty years, declares that the Helen Hayes Sweet Pea has the loveliest color he has ever seen, it is indeed high praise. Helen Hayes writes us: "I love the Helen Hayes Sweet Pea and will be one of its most enthusiastic supporters."

David Burpee presents Osa Johnson, world-famous explorer and author, with a new Sweet Pea named in her honor, at the recent book and authors' luncheon in New York.

Burpee's New Early Flowering Sweet Pea

3341 Osa Johnson

We take pleasure in offering you our new Sweet Pea Osa Johnson, named by special permission of the well-known "first lady of exploration." She was, among other distinctions, the first woman to explore the South Seas and photograph its cannibals; the first to photograph a gorilla in its natural habitat; and the first and only woman ever granted a big game license in Africa. Osa Johnson is an enthusiastic gardener; in fact, at every lengthy stop on her travels she planted a garden and supplied her table with food far different from the usual jungle fare. Her movie and book, both called "I Married Adventure," is a dual memorial to her distinguished husband, whose explorations took them six times around the world.

Osa Johnson Sweet Pea is distinct from all other orange-colored Sweet Peas. There is a foundation of a lovely salmon tone in the orange which is quite outstanding and pleasing. When grown under glass, the general color effect can best be described as light salmon-orange. Outdoors, the salmon is less pronounced, but being in the flowers it seems to make them less susceptible to sunburn. Whether grown outdoors or indoors, the color is distinct and stands out prominently in any planting.

Osa Johnson Sweet Pea, while belonging in the orange group, possesses a clarity and luminous quality of color seldom found in orange Sweet Peas. It is beautiful, and especially so under artificial light, where the heavy, almost waxy texture of the flowers is brought out to the fullest.

Flowers are remarkably large for an orange Sweet Pea. They have a lovely waved form which further enhances the beauty of the color. Substance is remarkable, so that flowers last long when cut and stand shipping well. Stems are long and thin, gracefully carrying the attractive flowers in threes and fours. Plants are vigorous growing and very free flowering. **Oz. 85¢; 4 ozs. \$3.00; lb. \$10.00.**

Complete List of Burpee's Early Flowering Giant Sweet Peas for Florists

Varieties are arranged in each color class from deep to light shades

Burpee's Early or Winter Flowering Spencer Sweet Peas are indispensable to florists for winter flowering under glass. They are also suited for outdoor planting in frost-free sections and for earliest blooms outdoors in the North. Flowers are extra large, of perfect form and texture, well placed on long, strong stems and usually produced in sprays of four.

* We have marked with a star (*) the varieties that we particularly like in each color class; if you are in doubt as to which to choose, make your selection from those thus marked.

Burpee's Red and Gold Hybrid Marigolds

HYBRIDS BETWEEN THE AFRICAN AND FRENCH

The only large-flowered Red Marigolds in existence, $2\frac{1}{2}$ to 3 in. across, nearly three times the size of the largest double French Marigold. Some flowers are solid red while others are delightful combinations of red and gold. The colorings vary with the season and the growth of the plants.

Burpee's Red and Gold Hybrids are the earliest of all Marigolds, as they come into flower in less than eight weeks from seed and continue to bloom most profusely over a longer period of time than any other Marigold. They grow $1\frac{1}{2}$ ft. tall, 2 ft. wide, and are covered with flowers at all times.

150 seeds 20¢; 300 seeds 40¢; 600 seeds 75¢.
